

# Sufravon

Plant-based Cleansing Surfactant

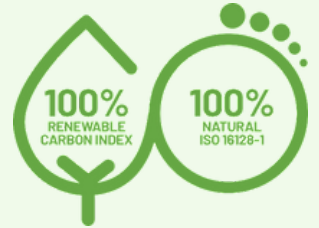

## Sustainability Fact Sheet

### Sustainable Source

Traceable & ethically-sourced feedstock

↓ Coconut Oil has an **82% lower carbon footprint** than Palm Oil  
Source: apps.carboncloud.com

### Sustainable Manufacturing

#### Carbon Footprint Reduction

Using biomass & solar in the manufacturing process  
Wastewater recycling  
All by-products upcycled

**27%**  
CO<sub>2</sub> Reduction  
\*compared with a newly manufactured plastic drum.

### Sustainable Packaging

Reusing drums to reduce single-use plastic  
(Minimal use of virgin plastic)

### Sustainable Warehousing & Logistics

Multifunctional ingredients that can be used for personal and home care products  
Vertically integrated to streamline logistics

### Sustainable Formulations

**34%** more effective in cleaning

Based on 1% surface tension versus SLES. Good wetting ability enhances the effective removal of contaminants.

**60%** easier to rinse

Based on sensory evaluation. This can lower the water consumption of clean water

### Sustainable Environment & Community

#### Readily biodegradable

Passed the OECD guidelines
